**Absent:** Mrs. Labow

**Also Present:** Michelle Masser, Township Clerk; Sue Sharpe, Township Attorney; Robert Greenbaum, Mayor; Andrew Tatarenko, Business Administrator; Claudia Tomasello-Quinn, Assistant Business Administrator; and Sherry Kolody, CFO

**President Nicastro:** Mr. Ferrante, would you approve the Minutes from the previous meeting, October 4, 2022, Workshop and Public Session, and Closed Session, please?

**APPROVAL OF MINUTES OF PREVIOUS MEETINGS**

**October 4, 2022 WS & PM & Closed Session (Absent: G. Stewart)**

**Mr. Ferrante:** Sure, I make a motion to approve the October 4, 2022, Workshop, Public Meeting, and Closed Session Minutes.

**Mr. Mania:** Second.

**Mr. Roman:** Second.

**President Nicastro:** Second? Anyone from the public have any questions on the Minutes? Seeing none. I’ll close that to the public. Anyone from Council, discussion? Roll Call, please.

**ROLL CALL:** Passed with the exception of Mr. Stewart, who abstained on the October 4, 2022, WS, PM, & CS Minutes

**President Nicastro:** Andrew, we have our Best Practices Inventory discussion?

**Mr. Tatarenko:** Yeah, but I’m going to turn this over to Sherry as she was the one who prepared the documents but this is the Annual Best Practices Inventory and I do believe we scored well, but I’ll turn it over to Sherry.

**DISCUSSION ITEM**

- 1. Best Practices Inventory

**Mrs. Kolody:** Hi, everyone. How are you?

**President Nicastro:** Good. Hi Sherry.

**Mr. Roman:** Makes sense.

**Mrs. Kolody:** Good, hi. So, as Andrew said, this is our annual discussion for the Best Practices Inventory. If you recall, the Division requires that we do this every year to assess our compliance with certain operational best practices. We’re required to complete this in order to get our final allotment of State Aid which

approximates \$100,000.00. It is required to be discussed in a public meeting, which is why it's on the Agenda tonight.

**President Nicasro:** Okay.

**Mrs. Kolody:** The topics are similar to what they typically have been in the past. So, health benefits, personnel, financial administration, budgeting, tax collection, our ARP funding, cyber security, that's just an example. Interestingly enough, lead remediation was a new topic this year. They had nine questions on this, which we sort of found surprising because the requirements for this just went into place but I thought I would mention it. There were 56 questions, 31 core competencies, 11 best practices, and 14 unscored questions. The scored questions had a variety of amounts. The total that you could get is 36.5. We actually wound up with a total of 35. I'll go over the two that we missed because Alex, I know that you ask these. So, the first one was, they had a question related to nepotism and whether we have an Ordinance. We lost a half a point for that because we have a Resolution for . . . that adopts a nepotism policy, not an Ordinance. The other one that we lost a point on related to the Ethics Board and whether the Ethics Board issued violations to officers who failed to file their financial disclosures by April 30<sup>th</sup>. So, basically in a nutshell, we did really well as we normally do. We fully expect that we're going to get our final allotment of State Aid and again, we scored 35 out of 36.5 points. Does anybody have any questions?

**President Nicasro:** Mr. Roman?

**Mr. Roman:** So, on the . . . on the two, well, I guess half points that we got deducted, are we going to be moving forward in correcting them? Well, I guess, for Andrew.

**Mr. Tatarenko:** Yeah, I mean, I don't think at this point there's anything to correct on the one about the financial disclosure. That's already been dealt with. It's really up to the Ethics Board if they want to impose any fines for that violation. The nepotism one, like Sherry said, you know, we have a . . . it's in our personnel manual, which gets adopted every year. We could draft an Ordinance. I could speak to Sue about, you know, codifying the nepotism policy in the Ordinance. It's not a big deal.

**Mr. Roman:** I think by . . . if we put it into an Ordinance, I think it definitely sends a message, more than just having it in our personnel manual.

**President Nicasro:** Mayor.

**Mayor Greenbaum:** I personally don't think it sends any additional message. I do agree that it should be codified if that's what the State is suggesting. We already follow that policy. So, I just don't see it sending a message, but I do agree with Alex that if that's what the State is looking for, that's what we should do. Kind of a no-brainer in my mind.

**Mr. Tatarenko:** No problem. We could memorialize that.

**Mayor Greenbaum:** Just take the Resolution and turn it into an Ordinance. That's all.

**Mr. Tatarenko:** Right.

**President Nicasro:** Okay. Any other questions or . . .? If not . . . thank you. Thank you, Sherry.

**Mrs. Kolody:** Thank you.

**ROLL CALL:** Passed unanimously

**President Nicastro:** Administrative Reports. Mayor. Andrew.

## ADMINISTRATIVE REPORTS

**Mayor Greenbaum:** Yeah, I'll start. I'll start. First of all, Oktoberfest was a huge success. Beautiful job by the Recreation Department utilizing the new gazebo over there which I think is going to benefit the Township in many ways going forward for many, many years. So, kudos to everybody for supporting that particular project. I also see that the Seward House is moving forward significantly. They're working on the cupola as we speak. Andrew, are they doing something with the windows during this particular phase? Or . . . it looked like they were doing something today.

**Mr. Tatarenko:** No, I believe the windows are the next phase. Now it's just the cupola and the moldings and the trim work. I think windows is next phase.

**Mayor Greenbaum:** Yeah, it's starting to really look good. You know, the park was really beaming this weekend with all of the different sporting groups up there and the soccer tournament. The park was really crowded, and it was really good to see the park getting used like that. Soccer field number three is absolutely beautiful. That company has done great work for the Township, both on the football field and that soccer field. Andrew, I had a question for you about the Carlton Water System and whether or not we've had any comments from the residents since the sediment was pulled out of the tank or the lack of any comments certainly would be a telltale sign that the problem has been abated.

**Mr. Tatarenko:** Yup. I think it's the lack of comments. I did reach out to them after the sediment was removed, just to kind of give me an update to see if their filters are getting cleaner. So, I haven't heard anything. So, I think that's a positive note.

**Mayor Greenbaum:** Good. I'm also very happy that, you know, we're finally moving forward with the remediation on the Pinecrest Water System. Obviously, the provision of safe drinking water is one of the most important things that we do here at the Township level. I'm very happy to see that we're moving forward with the planning stages with respect to the Pondview Property. I know that that property, once we decide the appropriate use for it is also going to be of great benefit to the residents of Mount Olive and surrounding areas. It's an absolutely beautiful piece of property that we got a bargain basement price. So, very, very happy. I also note from speaking to Andrew that we're moving forward in terms of the Budd Lake Beach Project. Is that right, Andrew? That within the next couple of months, we should have some engineering drawings together in terms of moving that project along.

**Mr. Tatarenko:** Yup. That is correct, Mayor. I still plan on breaking ground this spring. So, we still have some permits to get through with DOT and DEP but, you know, bearing any challenges through them, I'd like to see some construction this spring.

**Mayor Greenbaum:** Lastly, we did have a discussion about Valley View (Valley Brook Park), and you advised that there were some DEP issues and hurdles that we need to address before we could actually decide how to further develop that property. Is that pretty much where we are right now with that project?

**Mr. Tatarenko:** That's correct, Mayor. Our engineer brought on an environmental consultant to kind of work through all the wetlands and DEP constraints. So, he's reviewing all that information and then once he has all that together, we'll approach the DEP and see what permitting is required and to see what they would allow to be built within all those constraints.

**Mayor Greenbaum:** I have to say that the fountain at Turkey Brook in the retention pond is one of the most talked about items in my travels every morning at Turkey Brook. People absolutely love that fountain. They think it adds a touch of class to the park and beauty and glad that we finally got that going. I do realize that there are still some issues that we need to address with respect to the clogging of the pump but I'm sure that that will be resolved shortly. Have I touched on all of the major projects at this point, Andrew, that we were working on? I think I have.

**Mr. Tatarenko:** Yep.

**Mayor Greenbaum:** Is there anything else?

**Mr. Tatarenko:** Just the Health and Wellness Center continues. We've been having meetings with the architect. At the next meeting there will be a Resolution to increase the contact to the architect because initially, the plan was just for a one-story health center but now we've decided to go below ground with a basement for storage, so, there's, you know, changes to the scope of work but that's moving along nicely as well. Should be able to share some concept with you before the end of the year.

**Mayor Greenbaum:** Okay. Thank you for all the updates, Andrew. I appreciate it.

**Mr. Tatarenko:** I just have one more thing to add. Last week, Sherry held the bond sale on Tuesday, and we got above average results. There were 32 bids from six different bidders. The interest rate on the bond is 3.39 percent with \$566,000.00 worth of premium. So, the majority of that will go towards reducing the debt and we'll utilize some of it towards surplus but overall, it was a good bond sale for the Township in comparison to other recent bond sales. So, kudos to that.

**Mr. Roman:** I think we must have a pretty good FICO score.

**President Nicastro:** I'm sure. Thank you. Any Old Business from anyone? Any New Business from anyone? Any Legal Matters, Sue?

**OLD BUSINESS - none**

**NEW BUSINESS - none**

**LEGAL MATTERS - none**

**Mrs. Sharpe:** Nothing tonight. Thank you, Council President.

**President Nicastro:** Thank you. Council Reports. Mr. Amianda, do you have anything on Board of Education and Seniors?

**COUNCIL REPORTS**

Board of Education Liaison Report  
Senior Citizen Liaison

**Mr. Amianda:** Yes, I have. Mount Olive Township . . . Mount Olive Seniors held its social meeting yesterday and at the same time, they celebrated the . . . celebration ceremony which ended up being a very big thing because it was kids and . . . the members. The . . . Sandra, the president of the club, made announcements . . . reminding people about what is coming on . . . Mount Olive's anniversary year . . . 50<sup>th</sup> anniversary year is . . . supposed to be held November 28, 2022. It usually is going to be catered and if you wanted to consider to join, you have to contact the Senior Citizens Club. The . . .

**President Nicastro:** What's that, Mr. Amianda?

**Mr. Amianda:** The other thing is that the superintendent . . . the Board . . . the president of the club sent thank you to all who made donations to the Veterans . . . Fund with the club . . . \$400 . . . in all, she said that club ended up collecting over \$5,000.00 for the club and that was very good. She thanked the . . . club members for making the contribution. Also, the Mount Olive Township Board of Education sends thanks to Recreation Department for printing the newspaper. The other point which I wanted to say was Mount Olive is having very good comments on most people who come to attend our Mount Olive Township meeting. They have a very good impression of what we are doing and . . . goes to the Town Council and what they are doing for the seniors who are living in Town.

**President Nicastro:** Thank you.

**Mr. Amianda:** I think that's what I have to say about that.

**President Nicastro:** Okay. Is that it, Mr. Amianda?

**Mr. Amianda:** There was one thing I just wanted to say about . . . I did not attend the Board of Education meeting yesterday because I had to go to the . . . hospital because my wife's sick. She's not getting better. So, I had to miss the meeting they had yesterday. That's why I didn't . . .

**President Nicastro:** No problem. I wish her well. Sorry. One change on the meeting, so you know. The seniors, as Daniel mentioned, Mr. Amianda mentioned . . . it's their 50<sup>th</sup> anniversary so I did want to congratulate them on that. The dinner was moved to November 10, 2022, is when the dinner will be and yeah, so November 10<sup>th</sup> will be the 50<sup>th</sup> Anniversary Dinner, so you know. They expect a lot of people to attend there, and the Township is providing the food for them which is the least we can do with them because they have a pretty good crowd of seniors now. They're doing a great job. So, I just wanted to give a shoutout to them as well and let everybody know their 50<sup>th</sup> anniversary. It's a long time. So, the club is almost a senior by itself. So, there you go. As we get close. Thank you, Mr. Amianda. Mr. Ferrante, anything on Environmental, Lake, and Library?

Environmental Committee  
Lake Issues – none  
Library Board Liaison

**Mr. Ferrante:** Environmental met two weeks ago. A brief meeting. We discussed a couple upcoming Planning Board applications where the Environmental Commission will need to opine on. Library met last week. Also a brief meeting. The circulations continue to trend higher and some positive news, the Library received their third of the mil allocation number for 2023. It's a nine percent increase. It's their largest increase since 2007. So, the Library's obviously very happy with that number that they'll be receiving. That's all I have.

**President Nicastro:** Thank you. Mr. Stewart, anything on Economic Development?

**Mr. Mania:** You passed me, Joe.

**President Nicastro:** Oh, Mr. Mania. I passed you again because I didn't see your picture, I keep going.

**Mr. Mania:** Yeah.

**President Nicastro:** Legislative and Planning Board, please.

Legislative Committee Report – none  
Planning Board Report

**Mr. Mania:** Planning Board, we had a lengthy meeting for the ITC . . . the homes in the ITC. We had testimony by the engineer and the architect. It's been adjourned to November. It's going to be about 500 homes there. Townhouses and single family and that's what I have.

**President Nicastro:** Okay. Thank you. Mr. Stewart, do you have anything on Economic Development? I believe Community Action's not back yet, correct?

Economic Development Committee Report  
Community Action Panel Report – none

**Mr. Stewart:** Yeah, that'll be . . . that's been postponed until next year, but the EDC has our relaunch kickoff tomorrow evening at 6:00pm.

**President Nicastro:** Thank you. Mr. Roman, anything on Recreation?

Recreation Liaison Report

**Mr. Roman:** Yeah, the committee was updated on some of the capital projects that have been completed and they're being enjoyed by the residents of the Township. As the Mayor mentioned earlier, the new pavilion is

being put to great use. There’s also the new ticket booth there. We also are . . . got updated on Flanders Park with some exercise equipment that’s been delayed due to supply chain issues. It’s going to be installed soon. That’ll allow residents in that area, especially those living in the senior facility, to be able to not only walk to the park, but exercise on some of the equipment provided. The sailing lessons for a company that has been providing sailing lessons on Budd Lake Beach for the better part of a decade or so, has requested to add a shed so they can store their equipment at the Budd Lake Beach. So, I believe the proposal should’ve been introduced or will soon be introduced . . . given to the Administration and also, the Recreation Department said that the funds that we provided for them to hire bands throughout the year was definitely put to good use and many people have been enjoying the quality and variety of music, live music, that we have been able to provide and I’m hoping that this could . . . that in the upcoming budget, we continue to support such efforts. And that is all I have.

Open Space Committee Report – none

Board of Health Report – none

Stigma Committee – none

**President Nicastro:** Thank you, very much for that and at this time, I’d like to open it up to the public. If anyone has any questions or comments, now is the time to raise your hand. I don’t see anyone from the public have anything right now so, I will close it to the public. I will go around for Council Comments. Mr. Amianda, do you have anything to say?

**PUBLIC PORTION – none**

**COUNCIL COMMENTS**

**Mr. Amianda:** Just add that Mount Olive Senior Citizens Club is the best for the organizations and services, and we have many, many other seniors from the neighboring towns who like to come and attend our Senior Citizen Club meetings. Like we did yesterday. They come from all over. It’s a good reflection of what we are doing here.

**President Nicastro:** Thank you. That’s true, thank you. Mr. Stewart.

**Mr. Stewart:** Nothing tonight.

**President Nicastro:** Mr. Roman. I’m going around.

**Mr. Roman:** I have nothing.

**President Nicastro:** Mr. Ferrante.

**Mr. Ferrante:** Nothing tonight.

**President Nicastro:** Mr. Mania.

**Mr. Mania:** Yeah, I just want to congratulate the seniors on their upcoming 50<sup>th</sup> Anniversary.

**President Nicastro:** Thank you, sir. I have nothing to say at this point, so, I will ask for a motion to adjourn.

**ADJOURNMENT** - Motion made and seconded. All in favor, none opposed, the meeting was adjourned at 7:55pm.
